CAREER GUIDANCE CELL REPORT

Report on the seminar: "Pathway to Medical Residency in the US"

The Career Guidance cell organised a seminar on USMLE: "Pathway to Medical Residency in the US", on Feb 14th 2019. The speaker was an International KAPLAN faculty, Dr. Tenzin Jamyang who addressed the students at M.S. Ramaiah Medical College. The program was well attended with 148 students. Participants included MBBS students from all the terms and interns. DR. P.T. Acharya spoke about the Career Guidance cell and its activities since 2 years. Dr. Thanuja introduced the speaker to the students. Dr. Jamyang spoke about the eligibility criteria, the steps of USMLE and the processes involved in selection and matching, which was very informative and pertinent. The students participated well in the interactive session with queries which were patiently answered by Dr. Jamyang. Dr. Soumya Ramani delivered the vote of thanks. The feedback by the students about the program was overwhelmingly positive with students looking forward for more such sessions from the Career guidance cell in the future.

Feed back report:

100 percent of the students thought that the program was relevant with the speaker addressing all pertinent questions and appreciated the interactive sessions. Time management and audio-visual were scored good and above by 98% of the participants.

PRINCIPAL AND DEAN
M.S. Ramaiah Medical College
& Teaching Hospital
Bangalore - 560 054.

The students commented on the usefulness of the program and wanted more such programs from the Career guidance cell addressing other qualifying exams in India, UK, Canada, Australia, Singapore and Europe. Some students wanted such sessions repeated often while some wanted seminars on other career options post MBBS

There were a few comments on time management saying that the seminar was too long which was probably due to many questions by the students which lengthened the interactive session.
