### Alumni feedback on Curriculum

No.	Observations	Strongly agree 4	Agree 3	Uncertain 2	Disagree 1	Strongly disagree 0
1.	The educational experience with the curriculum has helped me to perform better in my present assignment.					
2.	The curriculum has stressed equally on theoretical knowledge and professional skills.					
3.	I was given ample opportunities to learn about professionalism and ethics.					
4.	The curriculum has enabled me to gain a humane approach towards peers, students, patients and their families.					
5.	The examination system followed was transparent and fair.					
6.	The student mentorship program and opportunities for grievance redressal helped me to progress in my academic and extracurricular activities.					
7.	I was encouraged to pursue higher studies and research during my training.					
8.	The curriculum provided adequate training to appear in competitive examinations and acquire the skills to participate in the challenging field of job placement.					
9.	Any suggestions for improvement in the curriculum.

### Phase I Student feedback on Curriculum

No.	Observations	Strongly agree 4	Agree 3	Uncertain 2	Disagree 1	Strongly disagree 0
1.	The curriculum integrated knowledge in basic medical sciences with its application in clinical practice.					
2.	I got the opportunity to learn adequately through cadaver dissection.					
3.	I have acquired laboratory skills in basic sciences with interpretation.					
4.	The laboratory training also provided me with skills in clinical examination					
5.	I have gained a humane approach towards peers, patients and their families.					
6.	The museum has enabled me to pursue continued self-learning and to be a life-long learner.					
7.	The museum enabled me to integrate basic sciences with clinical application.					
8.	I have acquired the skills to access electronic learning resources and apply them.					
9.	The curriculum has created an interest to practice evidence-based medicine and pursue research.					
10.	The curriculum has familiarized me with the importance of National health programmes.					
11.	Coverage of the course was complete in the prescribed time.					
12.	Contents beyond the syllabus were covered adequately.					
13.	Objectives of the course were achieved.					
14.	Lesson plan/schedule of lectures, practicals and tutorials was provided at the beginning of academic year/semester.					
15.	The examination system followed was transparent and fair.					
16.	Foundation course at the beginning of my MBBS program would have been more helpful.					
17.	Early clinical exposure during phase I of MBBS would have been more helpful.					
	Any suggestions for improvement in the curriculum.
