

## *Foot and Ankle fractures*

*With great pleasure I would like to mention regarding the successful conclusion of the AO Trauma Asia Pacific hybrid Master course on Foot and Ankle fractures with a specific focus on Fractures around the ankle. The course was held simultaneously at 4 locations in India, across different time zones of the Asia Pacific, 10 countries. For the first time in India, there was a module on Telementoring, held in the ALC and I was leading the conduct of the Cadaver Lab with inputs from Dr Tomlinson in New Zealand and Dr Les Grujic from Australia and it does have a promising future. Along with the other faculty Dr Sundararajan and Dr Sampat Patil (both past Presidents of the Indian Foot and Ankle Society) and Dr Rajesh Simon (President Elect of the IFAS), I thank the institution and Team ALC who ensured the seamless conduct of the course.*
