

To All Parents of students of 2nd year Medical,

Dear Parents,

**Subject: - Inter-disciplinary Community Based Training Programme (IDCBTP 2023) from
24/06/2023 to 01/07/2023.**

Cordial Greetings from Ramaiah Group of Institutions!

RMC has been organizing the community orientation program for the medical and dental undergraduate students for the last 19 years. The institution, in its wisdom, has expanded the program to include students from other health professions such as pharmacy, physiotherapy and nursing. The core idea is to bring together the students from various disciplines and expose them to the nuances of the community-based learning. This would enable them to work as a team in addressing the health care needs. It is a unique attempt and is pioneered with the theme of “UNITY FOR HEALTH”. This unique programme involves exposure of your ward to lifestyles in rural areas.

GOALS :

- 1) Ensure value education through service to marginalized groups - people living in villages/slums.
- 2) Strengthen skill and attitude of UG students to help them serve later as effective doctors and leaders in the society.
- 3) Help the institution to work towards increased social accountability-in its service, training and research endeavors in undergraduate curriculum.
- 4) Help the students develop appropriate communication skills.
- 5) Instill & inculcate self-learning – problem-based learning.

The programme involves *residential stay at Kaiwara* along with visits to a rural primary health centre, Chintamani taluk hospital, Anganwadis and a school for special children. The students will conduct a survey, interact with the community members, children at school and develop-deliver health education in the community and schools. Kaiwara Primary health centre is one of the rural health center attached to this college, which is about *70 kms from Bengaluru* (15 kms from Chintamani) in Chikkaballapur district. The students during this time will be under the guidance of the faculty and visit the assigned villages in groups, build rapport and undertake various activities that will fulfill the objectives of this programme.

It is hoped that this exposure along with your kind support and cooperation will enable your ward as a student to become a better healthcare professional and more so an empathetic human being. The students will visit these families again during later term & during internship.

The programme is from **24th June to 1st July 2023**. The Kaiwara stay for your ward will be for 6 days. The boarding and lodging facilities have been arranged at Kaiwara Sri Yoginarayana Yathindraru Ashrama. They will be in a safe and secure point under the guidance and supervision of our faculty members.

Kindly note that attendance is compulsory and if the student is not able to attend for whatever reasons, the management would take appropriate decision regarding the student's attendance and eligibility for examination.

A consent form for students and parents/guardians' signature will be given to the students.
